

Dena Fuller's testimony

Dena's grandmother is 82 years old. In years past she had battled cancer and Alzheimer's successfully. On Thanksgiving Day her grandmother was diagnosed with c-diff (an infection in the colon). The infection got worse and worse. She had a heart attack and was on the verge of a stroke. The family was told to bring her home and make her comfortable until she died. As they were praying over her bed though, the word of the Lord said "your grandmother is healed". Immediately after this word, her grandmother's body began to fail. Her kidneys started shutting down, lungs filled with fluid. Dena took her grandma to a different hospital. They said that there was not anything that they could do for her, but placed her in the ICU. They said that she would pass that night. We decided to have faith anyway.

You see Dena had made a vow to God one year earlier that said if God would spare her grandmother's life; she would read the entire bible to her every year. Dena was fulfilling this vow when shortly after she had read the last scripture this all began. The enemy wasted no time. Initially I began to accept her death as imminent, but then realized that I did not need to accept it because God said that she was healed. From that point onward I began to pray in faith. As our family began to leave the hospital, the Holy Spirit stopped me and told me to go back into the room and read Psalm 23. (Yeah though I walk through the valley of the shadow of death, I will fear no evil,) After she read this Dena's grandmother flat-lined and the machines began to alarm. The Doctor's and Chaplin tried to get Dena to accept her Grandmother's death and let her go, but Dena spoke against the spirit of death. Seconds later the Chaplin screamed "She's awake!" Dena quoted Psalm 118" She shall live and not die." The Dr said "whatever you are doing, just keep on doing it because she is still with us and it is working." Even after this, the Dr. explained that she would not live another day though because her kidneys were gone, her blood pressure was low and the c-diff infection wasn't gone. The next day though she was much better. Now the C-diff is gone. Her kidneys are operating better than they ever have. You have the authority to use the name of Jesus. Isaiah 58 No matter what things look like, stand on the word of the Lord. I give God all glory and honor and praise.
