The Trumpeter's Call is a prophetic training ground. Where we can have the opportunity to train as well as give you the opportunity to exercise in your call and you gifting. We do have specific topics that are laid out in advance unless the Holy spirit changes that. Most of our segments of teaching have been given as a specific assignment to carry out. If you would like to assist on The Trumpeter's Call, you are more than welcome to send us a email at www.ericnewble.com. We still a great deal of inactivity of individuals making it known that they would like to assist. Our desire is to get you involved on a multiple of levels. It takes a company of people to facilitate the movement of God. This is definitely an opportunity that stretches. I am constantly reminded in dealing with people on a daily basis that there is a scene in the movie the Gladiator, where Caesar's son has taken over and has basically betrayed his father, then killed him and then robbed Maximus Arillius of the crown, because his father loved Maximus more that him because Maximus was a loyal man who was committed, he was a solider and his father had a lot of honor and respect for Maximus. The younger son was so upset that the father chose Maximus over him, This is no different from any type relationship or familiar type setting, that if one person gets some credit, the other one seems to be bothered, some of that is because of insecurity, but there is one point in the movie, where the sister who is the father's second love after Maximus, who can not take the rightful place on the throne because she is a woman and at that time Roman emperor's could not be women. In some cases, this is still the case about a realm of authority, but the crowd seems to be leaving the brother and because his whole mentality was about approval, he wanted to be approved by his father and that is like all of us, we definitely want God's approval over our lives as well as natural fathers. For several years of my life before my step dad, who is my dad, came into my life, I constantly struggled with acceptance. Even when I got older I struggled with acceptance.

When you are in a place where you are insecure or you have not been validated by something or someone, there is this area of weakness and there is this area of "I don't know if I can do it" we call it intrepadation. This is to young protégé's who know you have a call on your lives, dreamed and even envisioned of the Lord to do great things and you aren't taken the opportunity on the Trumpeter's Call to stretch yourselves out. You don't have to be a member of any of our churches or a covenant partner of Eric Newble Ministries. This is an opportunity to give the person who is participating, the opportunity to grow in their gift, if you don't take every opportunity to be better at your gift or your craft, or a person who is in the midst of it, when it's time for God to call you, you'll do as Moses did and other patriarchs, they ran. We call that a season of their flesh. They ran because they were not practiced well enough in the thing that God had called them to do. That is really important. The Gladiator is a movie about conquest and the crowd is moving away from the brother at this specific time and the sister says to the brother, "Brother, the crowd is fickle" When things are good with Christian people, they are great but when things are bad, things are horrible. This is a huge statement because if you are not careful, you are stepping into the second month, which is February. The number two being the number of witness, of establishment and of government. We have been declaring on this line long before 2012 that the Lord is going to establish things in our hearts that have never been established before, we are making decrees that some of you have never heard before, like adopting the principals of The first fruit., there are things some of you have never seen or been attached to. In every system of the world you have to isolate certain groupings of individuals that are skilled in a specific thing to make them strong. When you come to the line there are groupings taking place. The more that you teach, preach or are in movement of the nucleus of motion, the better you become at a thing. In the world, they say practice makes perfect but in the church we know that perfection is as maturity. We have to destroy the inactivity that you are so afraid to be apart, if you sit on the sideline and never get in the game, when God calls your name, and he does have an appointed time in which he wants to bring you to the forefront of whatever it is. There are many individuals who spend more time, trying to preserve themselves than trying to go hard after God. These people are trying hard to preserve what they think they have, than they are what God has given them. If you stay in the realm of trying to preserve yourself, what happens is that you're going to get enough for you and yours and you're going to miss out on you, yours and anyone else that God has for you to bless. Team ministry and the nucleus of motion is so incredible important and so profound. A nucleus of motion absolutely is about the move of God and not the move of a man. We have got to be clear to our purpose in the aspect that when we are communicating, you are understanding clearly because faith come by hearing and hearing by the word of God. If we don't communicate the word of God in faith then it doesn't speak to your spirit the way it should. God is saying, I want all of you. Make sure that what you're going after lines up with the purpose of Jesus Christ. Make sure that there is a push behind what you're going after. The process of God never changes. We will not belittle things of God. **CHRISTENDOM HAS BLINDED US TO FOLLOW PERSONALITIES INSTEAD OF THE LEADING OF THE SPIRIT OF GOD!** Do not be a infidel, a person who is ruled by their emotions. It will not stand. They that are lead by the spirit of God are the sons of God.

This is a move of God, you have connected yourself with a great benefit. We are in an Apostolic Jet stream. Rom.16(apostolic companies)

Acts 18:24-18

Apollo's was a very educated and anointed man, learned in the scriptures, who taught very accurately and diligently. Luke mentions that Apollos only knew the baptism of John. Sometimes, God gives us other people to recognize that we have limitations and we can only go so far. Apollos was by himself. Apollos was from Alexandria, he was from one of the Egyptian cities that had one of the largest libraries in the world which was called the library of Alexandria, he was extensively trained in things like literature, and philosophy. After all of Apollos' gifting, Aquila and Priscilla knew that he could only take his self to a certain level. You must understand the Apostolic atomic structure. We want to recognize what we are called to do and what others are called to do. There are those of us who have believed that we are team players, but people struggle with who they are. There is a certain mentality that God is trying to break. This Apostolic atomic structure is not built upon protons. Protons dictate what the atom is. Some people are called to be in the local church and travel as well. Everyone needs a covering. (Rom 16:3-5) Paul knows that the customary way to write is to address the male first, Paul breaks tradition, because Paul had a very intimate relationship with Priscilla and Aquila. He calls them his helpers. Paul discerned the apostolic atomic structure of this couple. They were a husband and wife team who were Pastors. He recognized that the apostolic anointing rests on Priscilla. An apostolic looks at what makes a person and does not care about the gender. We see so many women of God taking their rightfully places. Paul breaks custom as he writes to the Roman church, who is very much about strength. When you are in a nucleus of motion God is not looking for approval. Paul is breaking a socialistic mentality in certain regions. We have to be astute in how we address the mindset of people. Our women continue to be inferior to men when at times they are far better. There are more women mentioned in Paul's writings than there are men. Paul is addressing what is strength and what is leadership. This is not about an anatomical structure. Individualism will not work! The anointing is in the corporate not in one individual.

Apollos went from being an individual and became a part of a nucleus. He was a particle. This educated man submitted himself to a ministry which was led by a female. There is no mention of how much time Apollos spent with Aquila and Priscilla.

Gal. 1: 14-15 He recognized the anointing and the authority and submitted himself. The nucleus of motion is a type of womb, Priscilla is a female authority figure, a type of mother. Apollos had to go back into the womb for a while and learn. When it pleased God, he separated Apollos from the womb. When you submit yourself to the nucleus of motion, God uses other people to speak on your behalf. God has always desired his people to be in motion.
