

4/12/11

Prophecy given by Pastor Eric Newble:

To Kim Evans:

“God wants distinct personality and he wants seasoned individuals that are flexible to the move of God. This is about bringing individuals together that know how to work with individuals. God is not trying to organize big names. This is not about organizing a multitude of people so that individuals can get together.”

To Pastor Doris Terrell:

“Probably for the last two weeks your name just keeps coming up. As I was sitting here on the front row. The Holy Ghost kept speaking to me. You are another individual who is supposed to do a conference. We have been friends for years and is a wonderful person. Dr. Doris is on the line and as he kept on talking he heard conferences in his spirit. I see a mobilization coming together and I see a mobilization. It looked like things got hot and metals begin to expand across the sheet. Now there is about to be a cool breeze. All of the metal is about to come together. Things that could not be broken and there is about to be a connection in individuals that have left. God is pulling back together and he had to purge and deliver. This is a brand new place of anointing. This is a place of restoration, movement, and mobilization. I see you in the realm of the spirit. I didn't just cause you to do this and I have caused you to more. “
