

Trumpeter's Call

Nov. 8, 2011

When God starts doing something new in your spirit, it is called **new rooms**. You have to be acclimated. God is trying to train you. It is very important for you to be obedient to the father. We must have an active church. We must have activation in our local congregational community.

There is a great need of prayer and intercession

The platform Jesus set for us at Golgotha hill is a platform we must follow and one person cannot do it. Other people may be able to add to that which God has placed in your spirit. Everything that God is doing in you is not just for you. Keep in esteem the things that feed you. (The grace of God in your life, the people in our lives). There is a great since of accomplishment when you work hard and see things come to fruition.

When you are called to do a thing, it is not something you can pick up every once in a while, it becomes your life. God begins to download information, revelation and insight when you set yourself in line with God. Let us get to a place where our intercession gets us beyond what our frustration causes. You are the intercessor that stands in the gap between people who cannot touch God! Their arms are too short to understand the knowledge of God. "I am an intercessor and I am called to do. It is who I am." It is not about the deep responsibilities we all have, but about learning how to do what God is requiring us to do. Stop doing parenting and be a parent. Intercessors, keep yourself clean from all levels of frustration. Clear your slate. When we touch there is a flash point anointing. Do not allow congestion to stop relationships, or stop you from being the intercessor you are called to be. Create a presence of being settled. This is the day, there's about to be some things that people have hoped for right in your faces, but if you're congested, you will be more focused on what's causing the frustration and miss the miracles. Stay focused, understand and see your calling.

SETTLE YOURSELVES, some things are not worth being mad about. Your reach is touching someone's hands and it is taking them to God. The cares of this life are not stopping you from living it is teaching you and training you to live! Allow God to empty you out and fill you back up. (I Tim. 2:1-7) Lift up holy hands without wrath and doubting. God needs to be able to get your attention, so he uses a different voice.

The trumpeter's call is about hearing a sound that you have never heard before and calling you into attention. Flow with God wherever you are, and with whatever you are doing. Slow yourselves down and listen. Hear the sound and respond. Hear the heart of the father. Be encouragers of people. When you are a visionary and you run at a certain pace, it is hard to tell people to keep up. When we start making that transition, you have to let them know that God is requiring you to step up because God sees something great in you! We have to learn to do things differently, be open. Learn how to be thankful for the treasures God has put in our lives. (One another) The Holy Spirit salutes you for your work, your effort and your prayer. Intercessors stand in the gap.

This is a very critical season for the body of Christ and it always is when you are in transition. There are times that we feel like we are on our A game, we feel good about everything that's happening in our lives, but there are times of not being able to gain control, these are the times that God really wants us to tap into prayer and intercession even more. Learn how to probe, do not stop until you find something. Circumstances in our lives are not always about the circumstances, but learning to press through. We are going to have to be people who are bold and not afraid of conflict. We are living in a time that if we are not careful, we will allow prevailing spirits to stop us.

Billy Graham was kicked out of a youth group because they say he was too worldly. It is not always, how you start but how you finish. His ministry started to jump off when someone noticed him and placed him on a radio station that was failing. Out of failure, his ministry begins to explode. The Trumpeter's call is embarking on some things like bringing people to the forefront of their ministries. Eric Newble Ministries is developing opportunities for the body of Christ. God is going to skillfully show us how to work through many details. Ps.68:11. This is an exciting time; do not allow spirits of vexation to stop you from getting what God says is yours. The body of Christ cannot progress unless we go as a company.

Denny Thorne "The value of the body of Christ, the value of members"

Eph 1:17-18 Wisdom and revelation is not about you and me coming together to prove we know scripture, Paul goes on to say, that in the knowledge of him, this is the experience of life in relationship with Jesus Christ and this is what we need. There is an excitement in the air, but that excitement should continue to move forward. We do not know how all things will happen, but we know that they will because we serve a huge God. We want to be in a place of receiving. Some people have lost hope (favorable and comparable expectation) because of words people have spoken, negative words. There was a man pastoring a church in Ukraine who was 40-45 yrs. old, who people said was a bum and was not going to be anything, and we tend to believe what we here. A missionary came alongside of him and began to speak into him and he started to realize that he was someone of importance. Everything spoken over you in the negative connotation is a lie. You believe what the word of God says about you! We need to shake the dust and shake loose those things, which have bound you. Loose yourselves. He wants us to come together and lock arms with one another. Be ready to move forward. Shake off the orphan spirit. God wants you up and moving! We need encouragers; we need people to include us with what is going on. Get with people who are not naysayer's, but amen Sayers! You are an adopted daughter! You are a child of the king! You are a son of God!

Pastor Eric— When you meet people who have a love of God, you want to be around them. We are not going down a depressing road but a deliverance road. If you are a person who people have left you, you have to release the spirit of the orphan off your life. The spirit of abandonment. The Lord Jesus Christ has always been after the least likely. This is a spirit that must be broken! Sometimes life just happens, when you walk through seasons of abandonment and being left alone, It must be broken today. We have to take the time to tell people about them being the inheritance of Jesus Christ! You are loved in God. It excites Pastor to see people excited about what they do. When people love what they do, there is a joy their release. There are so many helpers in the kingdom, when we all come together, great things will be accomplished. Take joy in the riches that God has given you. Money and situational things do not stop the word of God from being in full effect. If the word of God dwells in you richly declare it until it manifests! It is an awesome thing to see the people of God, stand in a platform. Stop by and release the harvest of God on someone! There are eternal impartations that can be dropped into someone's life that can change the course of someone's life. Saints of the most high, you are not weak. If you would just be bold, God is going to show up for you! Where the world seems to be going through the lack of, and loosing things, the kingdom of God is starting to live! Why live oppressed and depressed when you do not know how much time we have left. Either you're going to make up your life to be happy and enjoy life or live life complaining. Rom. 10:18 What delivers you becomes your anthem, Luke 22 men's hearts are failing. You are the voice of God! Now publish it! Saints don't isolate, don't separate! In the midst of the herd is strength. Pray for Bishop Mark and Pastor Eric as they go to Tucson, Az. To minister at the Agape church.
