Nov. 6, 2011 a joint service in Jackson, TN. with Inspiring Ministries Intl. and City fellowship church.

Pastor Eric Newble

There are moves of the spirit that have broke out in many areas! Don't let there be a mighty blow out on Sunday and then a Hell out on a Monday, We believe God to be more than enough, El Shaddai! He can do above more than we can ask or think, so we need to start asking for big things in the kingdom. God moves us in and out of zones; this is his way of teaching us. God is trying to develop something in us that at whatever speed he's moving at, we can discern that he's releasing in the atmosphere. If we don't have joy doing the Lord's will, you have a major problem, it means you don't have the eyes right now to see what God is doing. Ecc. 3:11 God has implanted something in every one of us. Sometimes we question the implant, or if God implanted a source of purpose. Emotional outburst don't move God's hand. There is an appointed time that God is going to bring things to past. Within a span of time, there are strategic things that he is trying to teach us. We grow at different stages and we sometimes are locked into the outcome that we miss the process of how God desires to teach us how he moves and speak, you will never maximize the journey! Divinely implanted senses of purposes are like time released purposes. "Me: is not the ultimate plan, but a portion and a part of a larger scheme. You got to start at the cross and walk the journey to realize that maturity is the image of God, that is when you will see a divinely sense of purpose in the people of God. Over this journey of time, God has been building a level of strength; God is trying to show you a blueprint of what's divinely connected in someone else. The Son was the chief apostle, the son is the image. We are embarking upon and some cities are already in THE MOVEMENTS OF GOD THAT HAVE BEEN RELEASED in many areas. You're going to believe that the word that God speaks is a word that will speak forever. If you hate the process, you are still a babe. God is a God of strategy (rom. 11:33) His mindset is so beyond what we could ever do. We can never out think God. God can download in a second what some of us go to school for years. It's time for us to tap into the greater, you are called to do revolutionary things, you are called to change the very elements of what you think. You are called to operate at a greater velocity of speed! Whether anyone comes to endorse or not, release the church world! It's time to come out of the shallow, the fights with one another. If you can discern the realm of the spirit, you'll understand God is trying to indoctrinate the body with more of him! God has his eyes on every seed he has ever planted. We have to get out of the realm of micromanaging the things of God. What's happening is God is allowing you to walk the journey, to bring the investment inside of you out. God knew what you were going to be born into. God is trying to get you to lock into who you are? Who are you? There is an identity crisis going on. There is a line of demarcation, being drawn for those running at certain speeds or those who will not run at all. You see people all the time who are mad at those working, because they are not willing to work at all. If you've been set over a region, certain of them are ready, some are not ready for the move of God. We don't have enough activation in our world Christian wise. The greatest power source that we could ever be tied into, is doing the least in our communities. We have got to teach that the line of demarcation is not a God thing. Span the Gap! Produce a spirit of mentorship in the body of Christ. Apostle Paul was on a mission, not a mission he chose. Paul's commission was so strong that he didn't get caught up in things that would not produce. We don't have any movement in the church! We are more concerned with bills than souls! We have little movement, when we are called to the world. There are some people that are hurting worse than we are. We got to have more activation! There is a transformation taking place in many of us. While we're worried about keeping safety in our homes, someone else has lost their entire home! I have got to do something with the resources that I have to help those less fortunate. There is a lot of demarcation, and some of us know what we are called to do. Some of us are struggling with what God told us to do and we are losing valuable time. A man without a passion is a dangerous man. We were birthed out of the wilderness but we are not supposed to stay there. I cor. 2: 6-7, Eph. 3, talks about the mystery that he's been given to him. If the enemy knew that the more he persecuted you would produce strength, he'd stop fighting you. The enemy knows the word of God but not the mysteries of God.

You are a people of change! You are created to change life as you know it.

The line of demarcation is every man's work being made manifest. There are some works going on that have been lost, hidden. God is saying men who have tried to lay a foundation. God says he has got to get the people's minds off of money and stuff. Everything you have inside you was made to build God's kingdom. It's a law that what you create with your hands should feed you! You have got to be the first partaker of the thing that was implanted into your life. As Paul set with the counsels, they realized he had revelation of the mysteries. The Jews and the gentiles were separated. The dogs even had an inheritance and were an inheritance. I cor 16:9. Though we walk in a new geographic location there will be many adversary. All of Paul's life he was feared, cast down or thrown away. Thank God for the anointing of the throw away. God is about to create a new normal, tearing down and building up the new ethnic! The new ethnic will not stand back and accept things the way they are, but are inundated with change." I want to make a change". Eph.1:18, Your purpose is on loan, he wants to see if you'll be a good steward over it. It's his hope, calling and inheritance, not yours. People get damaged in war, when people are afraid of something new and different they try to tear it down. We judge things before it's time I cor 4. Stop looking for an inheritance and be it! What is the inheritance? It's you! We have got to destroy mindsets so we can operate as the inheritance. You are the pearl in a messed up system. The church is the pearl in a messed up world. We have been the royal diadem from the beginning. The pearl is who you are believer. Your warfare has already been accomplished!

Oct 27, 2011

Judah International's All Nations Worship Conference starts today in Mackinaw, MI.
"He that dwells in the secret place" It will be streamed live for those unable to attend.

City Fellowship and I.M.I. will have a joint service on Nov. 6 at 3pm

Please invite someone to the Trumpeter's Call

We are thoroughly blessed to be able to host any move of God. There are some of us that God has called to walk ahead of time. You will see it before others see it. When God is taking you to a high place in the spirit, you're going to have to wait aggressively until others can see it.

There's going to come a day that people are going to make their way to the sanctuary of the Trumpeter's call.

Pastor feels like the Lord has allowed him to step into a place where he can articulate (I Cor. 16:9) give him utterance. We produce through prayer, supplication and through our voices. Only God can release verbiage and vernacular. It's usually the people close to you that do not discern the things that God is doing in you. We must have people, not afraid to release the word of God into the atmosphere. If you are not allowed to release, you will become shipwrecked! Today it is over that the self-proclaimed proclaims itself. **WHEN GOD OPENS UP HIS MOUTH NO MAN CAN SHUT IT UP.** You are in God's mouth, he is waiting for the right opportunity and maturity. God never wants to set a man/woman in placement unless they have walked sometime with good leadership. We are novices, if your eyes are not enlightened in what God is desiring to do. This comes with a tremendous amount of labor. Novices do not labour. They may have zeal but no training! No suffering! The Gentiles suffered and there was a work being done that was unknown. We've got some people that need to be released into their metron! When a move of God is taking place, God does not have to ask anybody. God set the man in divine order first, men have to step into place and be accounted for. Men lead!

Eph 1:18 There is things that God desires for us to see that are right before us. We see things but do not understand it. You're lives have not been enlightened. The thing that God wants to do, he wants to do through people. It shows more of his persona, his DNA. When you are a personality you reach beyond boundaries and lines. A smart business man goes across the lines of your agendas. The heart and the mind of God is to reach over into places that people have not been accepted, in that field is pearls of great price. God is given great value to you! I am the inheritance. I am the riches of Jesus Christ. (Rom 16) The people are the treasure! Knock the dust off! You are the riches and the inheritance. Cry not and spare not.

Keisha Dangerfield of Tucson, Az.: Right now you are at a critical transition in your life, you feel like you want to run, God says get the whole roll of what God is saying. Begin to journal. God is putting together a plan of operation for you. You have an eye and God wants to sharpen it, like never before.

Prayers

Minister Tommy- In the house there is a buildup of rivers, the waters are rushing in as different people are making their way into Mackinaw. We thank you for the buildup. You have strategically called individuals to come to this region! As the water gathers, it's bringing things with it. There is an intentional blessing on what you're doing in this region. Allow the spirit of excellence to be in this place. Allow those to be open that have been closed for many years. There is a revelatory anointing coming into their lives. A new and a fresh anointing, an indwelling. We thank you for victories great and small! Thank you for obedience.

Elder Jackie Hendricks: Thank you for the spirit of the midwife. We thank you for the momentum. We settle the atmospheres for travelers. No break downs or accidents. Let there be a revolutionary anointing released on the people. Thank you for stretching us and establishing our perimeters. Let there be an affirming and confirming. We pray for a supernatural strength and the spirit of activation be released. Let the impartations received be felt back at their local churches. Bind the spirit of heaviness. We submit our sacrifices unto you and we come open! You have ordained this time and this season just for us. Let there be an illumining of your word, a great igniting.

Sister Christy Thorne: May the people have a servant's heart. Your hands will become their hands.
